

Please enter your search criteria below. You can perform a partial search such as a part of a last name or a part of a first name. For example: the name of "smith" could be entered into the last name column as "smi". Less is sometimes more, as names could have been changed or indexed with an alternate spelling.

The naturalization record for an individual may contain a declaration of intention and/or a petition for naturalization. The original records contain information not included in the index. The amount and type of additional information varies. Some records are quite detailed, but many are not.

This index to naturalization records filed in Elk County covers the years 1884-1951.

The Pennsylvania State Archives has a partnership with Ancestry.com to digitize family history records in the State Archives and make them available online. The list of records available is located in the bottom left corner of the Ancestry.com Pennsylvania web page:
